

REMARKS

Claims 1-20 were pending in this application.

Claims 1-20 have been rejected.

Claim 1 has been objected to.

Claims 2-4 and 9-11 have been canceled.

Claims 1, 5-8 and 12-15 are amended herein.

New Claims 21-28 have been added.

Reconsideration of the claims is respectfully requested.

In Section 1 of the June 21, 2004, Office Action, the Examiner objects to the Abstract of the Disclosure because of the indefinite use of the term "base transceiver station." In response, the Applicants have amended the Abstract to correct the informalities noted by the Examiner. The Applicants respectfully request withdrawal of the objection.

In Section 2 of the Office Action, the Examiner objects to Claim 1 because of an informality. In response, the Applicants have amended Claim 1 to correct the informality and respectfully request withdrawal of the objection.

In Sections 3-11 of the Office Action, the Examiner rejects Claims 1-20 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter regarded as the invention. The Office Action asserts ambiguities and informalities in Claims 1, 4, 8, 11 and 15. In response, the Applicants have amended Claims 1, 8 and 15 to address the ambiguities and informalities noted by the Examiner. With these amendments, the Applicants

respectfully submit that the remaining claims are definite and particularly point out and distinctly claim the subject matter regarded as the invention. Accordingly, the Applicants respectfully request withdrawal of the § 112 definiteness rejection.

The Applicants thank the Examiner for the indication in Section 12 of the June 21, 2004, Office Action that Claims 1-20 would be allowable if amended to overcome the rejection under § 112, second paragraph, set forth in the Office Action.

The Applicants have added new Claims 21-28. The Applicants respectfully submit that no new matter has been added. The Applicants respectfully request entry and full allowance of Claims 21-28.
